Hi
Everyone! My name is
Magnus, Magnus the Great!
Well, at least that's what I WOULD
be if it was still the Golden Age of the
Vikings. It was a time where every
viking was feared. Every viking had the
power! Now we are hated by society,
and now we are exiles of our
conquered lands. Why? Let
me tell you about what
we did...

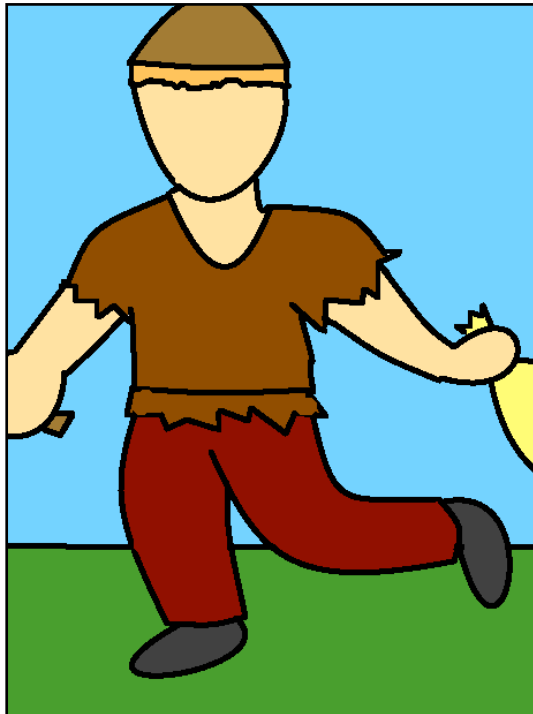

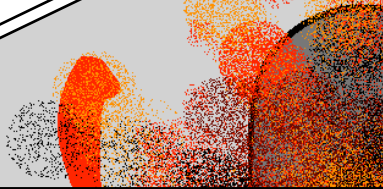

In AD 700 we started to attack neighboring countries and cities that were weak.

In AD 787 we started to attack the English since they were powerful and close to the sea. We wanted their treasure.

In AD 793 we started to attack monasteries in Lindisfarne.

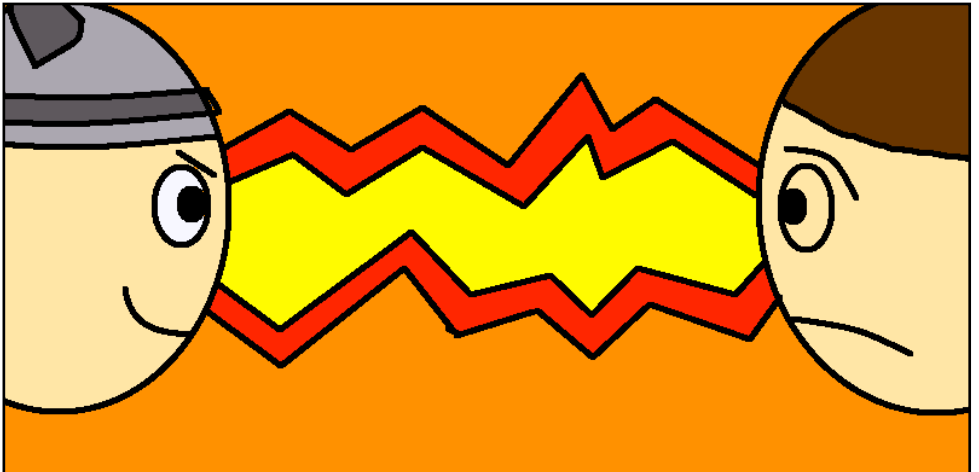

We would steal everything and kill everyone that came in our way. For us, it was a great way of life where everyone came easy. Mostly because people were so scared of us that they wouldn't even try to protect their belongings...

In the year AD 865 the Great Army of the Vikings attacked England.

After that the vikings started to attack all of Europe. They were the most feared names in all of Europe at that time. In the year 866 AD the vikings also captured York....

But not long after that --in the year 878 AD-- King Alfred defeated us! But we did not loose hope.. We still continued to attack other places and soon...

SOON..

In the year AD 900 we ruled all of the northern part of SCOTLAND!

And we didn't stop there! NO!

We then tried to conquer

AMERICA

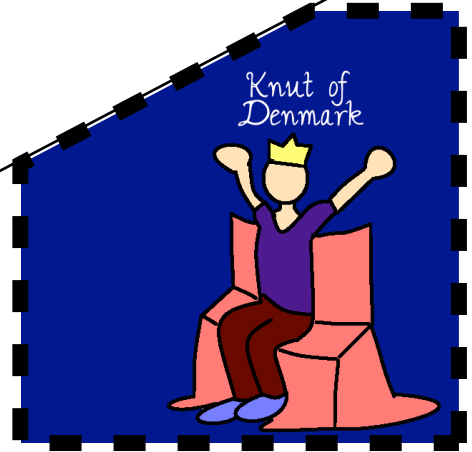

In the year AD 1000 we also set of for a journey, America as our destination!

But we only settled there for a short time. We were conquering the land there at around AD 1001

In the year AD 1002 the king of Denmark attacked our overtaken country, ENGLAND! They eventually took over the country too in AD 1016. Knut of Denmark became King of England.

King of
Denmark

Then in the year AD 1066 William the Conqueror, a descendent from the vikings attacked Europe. But his reign did not last long. In the year 1100 we gave up and agreed to be ruled over by the Kings of England. The Golden Age of the vikings was over.

William The Conqueror, a descendent of the vikings, took over Europe not long before the end of the Golden Age of the Vikings.

That
is the story of the
vikings. It was a glorious time
for my people and now I am ruled
over by the English...

One great viking was Eric the Red. He was
the first viking to ever find Greenland! And
he murdered without heart for his blood! All
vikings should be proud of him! He went
on many adventures to find long lost
lands! He was a true viking
success!
